WELCOME TO KIMA SURF'S PREMIUM SURFBOARD COLLECTION

Boost your Kima Surf experience in Bali and push your surf skills to the next level with our **Premium Surfboard** Collection of thoroughly curated high-quality performance boards, from top brands like **AIPA, Arakawa, Gerry Lopez, Woo Surfboards, Akila Aipa** and **SMTH Shapes**. Our Premium Surfboard Add On offers you the unique opportunity to rent and try one of the best boards the surfboard market offers. Choose your board from a high-quality selection of mid-length and shortboards.

Explore all the boards on the following pages and choose the board that best suits your skills and what you want to achieve during your stay with Kima in Uluwatu. Our surf guides are always available to answer your questions and advise you on finding the right board for you.

ENJOY THE WAVES AND STAY STOKED WITH KIMA SURF'S PREMIUM SURFBOARD COLLECTION

AIPA®

AIPA was founded in 1970 by Hawaiian surfer and shaper **Ben Aipa,** and it has been a staple in the surfing world ever since. Known for blending traditional **Hawaiian craftsmanship with modern technology**, AIPA creates surfboards that not only perform at the highest level but also carry the spirit of Hawaii and its deep surfing culture.

Each board is carefully shaped to give surfers the perfect balance of speed, control, and responsiveness, no matter the waves. With a focus on innovation and performance, AIPA continues to push the sport forward, supporting athletes and crafting boards that surfers trust — making it one of the most respected names in the industry.

AIPA

BISHOP BY AIPA

The Bishop by AIPA started out as a competition board, but it quickly became a favorite for everyday surfers who are looking for ease of performance in good conditions . It performs best in powerful waves, from shoulder-high to overhead and even though it is more forgiving than your standard high performance shortboard it still wants to be surfed in the pocket of the wave, meaning this board is best suited for advanced surfers.

LENGTH	WIDTH	THICKNESS	VOLUME	CONSTRUCTION

AIPA®

BAD FISH BY AIPA

The **AIPA Bad Fish** is a fun, fast board built for surfers who want easy speed. Inspired by the classic fish design, it has a wider outline and fish tail that help the board generate speed quickly and keep momentum.The quad fin setup gives the board extra drive and control on rail, while still feeling loose and playful in the pocket of the wave. It paddles well, catches waves easily, and feels comfortable in a wide range of conditions. This board is suitable for intermediate surfers learning on a shorter board or an advanced surfer searching for fun in average conditions.

LENGTH	WIDTH	THICKNESS	VOLUME	CONSTRUCTION
5'6	20 3/4	2 11/16	33 L	PU
5'8	21	2 11/16	35.1 L	PU

Gerry Lopez

Gerry Lopez grew up in Hawaii during the 1950s and 60s and was right there during the shortboard revolution of the late 60s and early 70s. He spent years surfing Pipeline in its early days, learning to handle the power of the wave and experiencing the thrill of finding the tube when few surfers were doing it.

Surfing has taken him all over the world — from the early days of G-Land to the remote islands off Sumatra, and especially to Bali long before it became the surf destination it is today.

Along the way he was also part of the early days of windsurfing on Maui, the rise of snowboarding, and even tow-in surfing at Jaws. Today, Gerry continues shaping surfboards, bringing decades of experience and a lifetime in the water into designs that keep his surfing journey moving forward.

Gerry Lopez

POCKET ROCKET BY GERRY LOPEZ

The **Gerry Lopez Pocket Rocket** is a solid, reliable board built for surfers who are searching for control in bigger waves. Its compact shape and slightly fuller outline make it easy to paddle and get you into waves early, while still feeling lively under your feet when needed. Exactly what you need when it's freight training down the reef.

Best suited for advanced surfers looking for a step up when the swell kicks into gear.

ARAKAWA

Growing up in Hawaii, **Eric Arakawa** was introduced to surfing at a young age by his father in Waikiki. By the age of 14 he had already shaped his first surfboard at his family home in Pearl City, beginning a lifelong passion for surfboard design.

Over the years he became one of the most respected surfboard shapers in the world, creating boards for many professional surfers and world champions. His designs have been used in major competitions such as the Triple Crown of Surfing and events on the World Championship Tour.

Today, Arakawa continues shaping high-performance surfboards on the North Shore of Oahu, using decades of experience and a lifelong love of surfing to design boards that perform at the highest level.

ARAKAWA

RP BY ARAKAWA

The **Arakawa RP** is a solid, reliable board built for surfers looking for control in stronger waves. Its refined outline and round-pin tail help the board hold speed and maintain stability when the surf gets powerful, while still allowing smooth, controlled turns under your feet.

Best suited for advanced surfers who want a dependable step-up when the swell begins to build.

Originating from Hawaii **Mike Woo** has become one of the most well renowned shapers in the world. Starting his shaping journey in **1990** his decades of experience are trusted by many top tier world class surfers and he is well known for his fine eye and attention to detail. Whether it's super tuned twin fins, daily drivers or step ups for when things get serious you will be glad to have one of his boards under your feet.

WOO

CYBER FUNK BY WOO

The **Cyber Funk** features a fuller nose that flows smoothly into a rounded pin tail, making it super easy to paddle and catch waves. Its flatter rocker gives effortless speed and glide, while the slightly fuller rails help maintain momentum even on softer, mushier waves.

It's a versatile board with plenty of control in all kinds of surf, making it perfect as your first shortboard. Whether you're stepping down from a bigger board or getting back in the water after a break, the Cyber Funk is easy to paddle, fun to ride, and still performs when the waves are good.

WOO

V8 BY WOO

The **V8 by WOO** is a high-performance board designed for speed, control, and powerful turns in a variety of waves. Its versatile shape works well on reef passes, point breaks, and beach breaks, making it a great choice for chest-high surf and above. The V8 feels stable yet responsive, giving you confidence in both turns and barrels.

With a slightly fuller outline for paddle power and a balanced rocker for speed and flow, it's a board that performs whether the waves are clean or a little messy. Tested by pros and backed by Woo's research-driven designs, the V8 delivers performance without compromise.

Best suited for advanced surfers looking to push the boundaries of their surfing.

WOO

ION TWIN BY WOO

The **Woo Ion Twin** is for the days you want to stop overthinking and just fly. Stripping away the drag of a center fin, this twin-fin plus trailer setup offers a fast, “skatey” sensation that generates incredible speed across flat sections.

It’s a modern take on the classic twin fin, meaning you get all that effortless glide and speed, but with enough bite to hold through a turn. It’s the perfect board to break your routine and experience a more creative, effortless flow on the wave.

Suitable for intermediate to advanced surfers.

SMTH SHAPES

Smith Shapes isn't just another brand on the rack, it's South African surf royalty. It all started with Graham Smith's craftsmanship in Durban and has been refined on the World Tour by his son, Jordy Smith. When you grab a SMTH board, you're riding decades of trial, error, and elite-level feedback. These high-performance boards are built by people who live for the feeling of a perfect turn and designed to push your progression to the next level

KIMA SURF

PREMIUM SURFBOARD KIMA SURF

SMTH SHAPES

VOLUME BY SMTH

The **Volume board** by SMTH Shapes is designed for the surfer who wants shortboard performance without the struggle. SMTH Shapes hide extra thickness along the stringer while tapering the rails, giving you paddle power without losing that sharp, responsive feel. A wider nose and relaxed rocker help you glide through every section. Whether the surf is a bit soft or pulsing, this board makes sure you maintain a high wave count and maximum flow. Best suited for intermediate to advanced surfers.

LENGTH	WIDTH	THICKNESS	VOLUME	CONSTRUCTION

SMTH SHAPES

PINDROP BY SMTH

The **Pindrop** by SMTH Shapes is the board when the swell picks up and the faces get steeper. With its sleek outline and pulled-in pin tail, it's built to hold its line when things get critical. It excels at drawing clean, surgical lines and offers a smooth, connected feel during high-speed carves. If you're an advanced surfer looking to hunt down barrels or simply want a board that won't slide out when the waves have some punch, the Pindrop is your go-to.

Akila Aipa

Akila Aipa grew up in the shaping bays of Hawaii, learning from his legendary father, Ben Aipa. Today, he's taking those iconic designs and giving them a modern, high-performance edge. Akila's boards are all about one thing: speed. By blending classic Hawaiian DNA with fresh innovations, he's created a lineup that feels incredibly fast and alive under your feet. We brought these into the Kima Surf rack so you can experience that signature "Aipa glide" for yourself.

Akila Aipa

STING BY AKILA AIPA

The **Sting** by Akila Aipa takes Ben Aipa's 1974 icon and tunes it for today's performance. That famous wing or break in the rail isn't just for looks, it acts as a pivot point that lets you turn the board around in a much tighter arc. You can surf it as a classic single fin, a lively twin, or a high-performance thruster. It's a fast, gliding ride that's just as fun on a playful peak as it is in a hollow section. A great board to mix things up for intermediate to advanced surfers.

Akila Aipa

MIDLENGTH BY AKILA AIPA

The **Midlength** by Akila Aipa is your ultimate cheat code for catching more waves without sacrificing the ability to turn. Designed to bridge the gap between shorter performance shapes and traditional longboards, it offers a smooth, flowy ride that handles almost any conditions Bali throws at you. It's the perfect choice for intermediate-advanced surfers seeking that balance of style and stability, allowing you to generate effortless speed and stay in the water longer.

WEEKEND WARRIOR

The **Weekend Warrior** by Blank and Resin is your reliable all-rounder that somehow makes the small stuff feel like a playground. While it looks like a classic midlength, it stands apart once the waves actually show up, especially in shoulder-high to double overhead point surf. Great for intermediate surfers wanting to transition to a more performance outline without losing the paddle power of a mini mal.
